To Whom It May Concern,

This is to certify that I hereby confirm that Musabbir Ahmed Arrafi has been employed as a full-time Engineering Intern at Datasoft Manufacturing & Assembly (DMA) Inc. Limited from January 2021 to May 2021. During this time, Musabbir was assigned to various projects in IoT, Embedded Systems, and AI. During this time he has demonstrated exceptional performance in all his responsibilities.

Musabbir has shown a strong work ethic, perseverance and a willingness to learn new things. He is a fast learner and was able to understand and implement new concepts with minimal supervision. He has also been a valuable team player, contributing his adept programming knowledge and skills to the success of the company. His technical aptitude, flexibility, and professionalism are indispensable.

In June 2021, Musabbir was promoted to the position of part-time Engineer Level 1, where he continued to excel in his role in IoT and AI team. He has been responsible for the firmware development with PYTHON and embedded C/C++, writing automation scripts with python, AI model development, CAD designs with SOLIDWORKS and maintenance of IoT products throughout their lifecycle.

He has worked here with us till 5th January, 2023. Musabbir has a positive attitude towards learning and development of new skills, and works well in a team environment. He is a great problem solver and he has been a valuable asset to our team throughout his employment with us. We highly recommend him and wish him all the best for any of his future endeavors.

Sincerely,

Hasan H. Rahman Ratan  
Managing Director, DMA
